

RE-POWERING THE FLATHEAD

for a New Energy Economy

2009-2010 Community Dialogue Series

Thursdays • 7 p.m. • October-April
FVCC Arts & Technology Building, Room 139

Join us for a series of seven FREE evening presentations and community dialogues on energy issues and opportunities that will shape our local economy, determine cost-savings for businesses and homeowners, and drive new job opportunities.

October 15:

Challenging Choices! Planning to Meet Our Growing Electric Energy Needs

Includes opportunities
for Q & A.

Bonneville Power Administration will cap the amount of hydropower that it sells to the Flathead Electric Cooperative in 2011, decreasing the supply of low-cost electricity in the region. How might this change affect local rates?

Session Host

November 19:

Energy, the Economy, and Jobs--- Planning for the Future.

Includes opportunities
for Q & A.

How are rising energy costs effecting local business investments and sustainability? Where is there potential for job growth? Join us for a panel discussion of challenges and opportunities.

Session Host

December 17:

Greening Public Places; Saving Tax Dollars --- Is it working?

Includes opportunities
for Q & A.

What savings are projected from a recent infusion of stimulus money for energy upgrades in Montana schools? What are potential opportunities for future energy savings and tax savings?

Session Host

Re-Powering the Flathead sponsors/participants include the following businesses, agencies, and organizations who invite you to join them in exploring ways to plan and prepare for our energy future in a new energy economy: Flathead Electric Cooperative, Flathead Valley Community College Green Team, F.H. Stoltze Land and Lumber Company, AirWorks, FBA Green, FUEL, Citizens for a Better Flathead, Ford Construction, Glacier National Park Green Team, Community Action Partnership of Northwest Montana, Mother Power, Algae Aqua-Culture Technologies, BioGeoPerm, Climate Solutions, AERO, FischWorks Building Center, Bridgewater Innovative Builders, SunWorks Architecture, Wood Wrights Building, Phoenix Rising Inc., and RD Enterprises.

For additional information call the FVCC Green Team at 756-3967.

Topics For January-April Presentations To Be Announced.
