

*Working to keep the Flathead
Special Forever!*

Since 1992, *Citizens for a Better Flathead* has been a leader at the forefront of addressing the challenges that rapid growth is bringing to our region. We work to protect clean water, natural beauty and friendly communities through sound planning and policy solutions. We believe in the power of collaboration and consensus building, and work to inform and engage broad-based public participation in planning for the future of the Flathead.

With Your Support, You Can Count On Us To:

❖ **Promote Best Practices** and innovative land use tools from around the country, appropriate to our area, to help manage our rapid growth.

❖ **Hold Decision-Makers Accountable** to following existing plans and giving meaningful consideration to public comment. Put forward the research and facts for sound decision-making.

❖ **Keep You Informed** by providing the research and analysis that enables you and your neighbors to more easily get involved in the issues of importance to you.

❖ **Imagine Impossible Things** because it's the first step to great ideas and new solutions!!!

**We respect all our supporters and NEVER share contact information or publish lists of donors.*
